Education

K R Mangalam University

Bachelor of Technology in Computer Science

Sep 2022- June 2026

Gurugram, Haryana

Technical Skills

Languages: Java, JavaScript, HTML, CSS

Frameworks & Libraries: React, Node.js, Express , TailwindCSS

Databases: MySQL, MongoDB

Tools: Git, Postman, Maven

Experience

Pravisht Digital

Backend Development Intern

June 2025 – July 2025

Noida, Uttar Pradesh

- **Developed and implemented robust RESTful APIs using Spring Boot**, contributing to the backend architecture.
- Integrated backend services with both **MySQL** and **MongoDB** databases, ensuring efficient data persistence and retrieval for application functionalities.
- Utilized industry-standard **development tools** including **Maven, Git, and Postman** for build management, version control, and API testing, streamlining the development workflow.

Projects

Learnify — Learning Management System (LMS) | *React, Tailwind CSS*

- Developed the frontend of a full-featured LMS platform using **React.js**, following a modular and component-based architecture.
- Implemented key modules including **Student Dashboard**, **Course Listings**, and **Educator Interface** to enhance usability.
- Integrated **React Router** for seamless single-page navigation across sections such as *Home*, *Courses*, and *Dashboard*.
- Designed and styled a **responsive, modern UI** using **Tailwind CSS**, ensuring cross-device compatibility and clean aesthetics.

RapidResQ — Emergency Response System | *Node.js, Express, MongoDB*

- Built the **backend** for an animal rescue platform with NGO authentication, volunteer roles, and adoption request management.
- Created and implemented **RESTful APIs** for user authentication, emergency reporting, image uploads, and role-based access control.
- Used **MongoDB** to store user profiles, incident reports, and response logs efficiently.
- Integrated **Leaflet.js** for location selection and enabled in-browser camera access for real-time rescue photos.
